DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest a device for forming a knot in a fishing line or the like in order to attach a fish hook or other item of fishing tackle thereto or to join the line to another line, comprising a support means with three fingers or other suitable nodes extending therefrom in spaced relationship, so that the middle or second finger or node is offset from a line joining the first and third fingers or nodes, each finger or node having means associated therewith which cooperate to allow the tying of a hangman's knot or uni-knot, the first finger or node having means to retain and rotate the free end of the line after it has passed around the other two fingers or nodes so as to be able to twist the free end of the line about both a first primary portion of the line and a second return portion of the line to form the knot, the third finger or node allowing a loop to be formed in the primary line to create the said return portion, and the second finger or node allowing a loop to be formed in the line intermediate the return portion and the free end of the line, the second finger or node keeping said loop thus formed away from or clear of the twisting operation performed by the rotation means twisting the free end about the primary and return portions of line running between the first and third fingers or nodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
